

generate.generate\_images

inference.inference

utils.process\_and\_plot

```
graph LR; A[generate.generate_images] --> C[utils.process_and_plot]; B[inference.inference] --> C;
```

The diagram illustrates a dependency or data flow. Two white rectangular boxes on the left, labeled 'generate.generate\_images' and 'inference.inference', have blue arrows pointing from their right sides to a single gray rectangular box on the right labeled 'utils.process\_and\_plot'. This indicates that both the 'generate' and 'inference' modules utilize the 'process\_and\_plot' utility function.
